PROFILE

Junior web developer passionate about creating responsive and intuitive interfaces. Comfortable with Figma and front-end basics, I also have initial experience in data analysis, which strengthens my attention to detail and precision. I’m eager to contribute to dynamic projects and keep learning.

EXPERIENCE

Web Development – Personal Projects

- Designed responsive web mockups using Figma
- Built small front-end projects (portfolio, landing pages)
- Published my online portfolio

Intern – Data Analysis at CCN Technologies
January 2025 – May 2025

- Analyzed medical data from Kaggle
- Learned core data analysis concepts
- Presented results in PowerPoint reports
- Gained introduction to data visualization and interpretation
- Contributed to a decision-making-oriented team project
